

Predictive Maintenance Project Proposal

Proprietary + Confidential

Objective

The goal of the data team is to create a machine learning model for predictive maintenance on the delivery company's fleet of vehicles.

Planning and Analyzing stages

Milestone	Tasks	Outcome/Deliverables	Estimated Time
Milestone 1	<ul style="list-style-type: none">- Define the scope of the project- Define the things needed- Find out how to supply the needs	<ul style="list-style-type: none">- Inform the stakeholders and demand their confirmation	2 weeks

Milestone 2	<ul style="list-style-type: none">- Preparing data and database system	<ul style="list-style-type: none">- Inform the stakeholders and demand their confirmation	3 weeks
-------------	--	---	---------

Constructing and Executing stages

Milestone 3	<ul style="list-style-type: none">- Reaching the final phase of machine learning models- Starting tests with various data	<ul style="list-style-type: none">- Inform the stakeholders and demand their confirmation- Focus on stakeholders' demands	5 weeks
-------------	--	--	---------

Milestone 4	<ul style="list-style-type: none">- Correcting the project based on stakeholders' demands- Presentation of project- Informing for suggestions	<ul style="list-style-type: none">- Inform the stakeholders and demand their confirmation- Receiving the latest feedbacks- Finalize the project and share	2 weeks
-------------	---	---	---------
